

SPX1117 FAQ

Part Number: SPX1117

Date: April 24, 2006

Question:

Does Sipex make a cross to ST Micro part LD1117AS12TR?

Answer:

Our SPX1117 is not available with a fixed 1.2V output voltage as compared to the ST part number requested. We offer an adjustable output SPX1117 that can provide an output voltage down to 1.25V but is not a drop in replacement for the ST part.
